

CT

## Payment Policies

To date, the IAC is aware that the following insurers or companies have adopted CT reimbursement directives. While the IAC attempts to stay abreast of reimbursement policies as a service to the CT community, these policies are changed and updated regularly by the insurance carriers. Therefore, the IAC recommends that applicant facilities contact the insurance carriers in their area for the most accurate and current information to ensure compliance with reimbursement requirements at all times. If you are aware of additional payment policies, or have questions about the information posted, please e-mail [reimbursement@intersocietal.org](mailto:reimbursement@intersocietal.org).

---

**PLEASE NOTE:** The policy details within this document detailing accreditation requirements are referenced directly from insurer websites and manuals and are only a portion of the full reimbursement directives, please search for the full policy using the links provided.

## Aetna (National)

Referenced from the [Office Manual for Health Care Professionals – All Regions](#)

### Radiology Accreditation

Aetna requires accreditation to be eligible for reimbursement for the technical component of advanced diagnostic imaging procedures. Accreditation can be from:

- American College of Radiology (ACR)
- **Intersocietal Accreditation Commission (IAC)**
- Joint Commission (TJC), and/or RadSite

The following types of providers require this accreditation:

- Independent diagnostic testing facilities
- Freestanding imaging centers
- Office-based imaging facilities
- Physicians
- Nonphysician practitioners
- Suppliers of advanced diagnostic imaging procedures

For these purposes, advanced diagnostic imaging procedures exclude X-ray, ultrasound, fluoroscopy and mammography. Included are:

- Magnetic resonance imaging (MRI)
- Magnetic resonance angiography (MRA)
- **Computed tomography (CT)**
- Echocardiograms
- Nuclear medicine imaging, such as positron emission tomography (PET)
- Single photon emission computed tomography (SPECT)

Note: Providers not accredited by the ACR, IAC, TJC and/or RadSite will not be eligible for payment for advanced diagnostic imaging services.

**Please note:** The above requirements list only a portion of the full reimbursement directive as related to accreditation. For full requirements, please refer to the [Network Participation Criteria](#) or the [Office Manual for Health Care Professionals – All Regions](#) (Updated August 2023)»

## **Anthem BCBS (Virginia)**

### **Diagnostic Imaging Accreditation:**

Within 30 days of receipt of a written request, Facility provider shall provide to Anthem such information as may be requested concerning diagnostic imaging services, equipment, licensure and/or accreditation. Facility shall provide such information in the manner and format reasonably required by Anthem (including, without limitation, using a web-based tool). Additionally, after making its original submission of this information to Anthem, whenever any material change occurs with respect to Facility's diagnostic imaging services, equipment, licensure and/or accreditation, Facility shall update Anthem on such change within 30 days of the change (unless a shorter timeframe is required elsewhere in this Agreement).

**Facilities that perform or conduct any Ultrasound, CT, CTA, MRI, MRA, MRS, PET, Cardiac Echocardiography and/or Nuclear/Nuclear Cardiology studies shall be accredited by the American College of Radiology (ACR), [Intersocietal Accreditation Commission \(IAC\)](#), American Institute of Ultrasound in Medicine (AIUM) or the American Society of Breast Surgeons (ASBS) for each piece of equipment utilized in such studies.** Facility has one year from the acquisition of the modality to obtain accreditation. Facility will make no charge and render no bill to any Plan, the Member, or the Member's guarantor for any of the studies listed above, and they shall have no obligation to make any payment to anyone, including Facility, for such studies, unless the studies are performed on accredited equipment as specified above

**Please note:** The above requirements list only a portion of the full reimbursement directive as related to accreditation. For full requirements, please refer to the [Anthem Virginia Facility Provider Manual](#) (Updated December 2023).

## Arkansas BCBS

*Referenced from the ABCBS Provider Manual*

Per the terms of participation for the Arkansas Blue Cross and Blue Shield Preferred Payment Plan, Health Advantage HMO network, and USABLE Corporation's Arkansas' FirstSource® and True Blue PPO networks, **advanced imaging centers must be accredited by one of the agencies that meets approval per these networks' required accreditation program**. This includes advanced imaging centers purchased by another organization, including hospitals.

In most situations, a currently accredited imaging center can simply notify the accrediting agency (e.g., American College of Radiology or [Intersocietal Accreditation Commission](#)) and ask for a certificate with the new organization's name applied to it. Arkansas Blue Cross, Health Advantage, and USABLE Corporation will need a copy of the new certificate.

Please understand that if the imaging center's new owner is a hospital, the hospital's Joint Commission accreditation does not automatically apply. In order for this to apply, the hospital must be performing both inpatient and outpatient imaging services and the imaging center must have been part of the on-site review performed by the Joint Commission when the accreditation was given.

**Please note:** The above requirements list only a portion of the full reimbursement directive as related to accreditation. For more information on the ABCBS requirements, please review the [ABCBS Provider Manual](#) (Updated 11-2023)»

## BCBS of Alabama

### **Preferred Radiology Program ([link](#))**

All Blue Cross and Blue Shield of Alabama Preferred Radiology (PRP) Providers must have current accreditation through American College of Radiology (ACR) and or [Intersocietal Accreditation Commission \(IAC\)](#).

The Preferred Radiology Program (PRP) was created to:

- Support referring physicians in their decision-making process
- Promote patient safety by eliminating unnecessary duplication of diagnostic services
- Maximize customer benefits by providing the most current clinical and technical recommendations to radiology providers
- Minimize patient out-of-pocket costs by directing patients to a diagnostic facility participating in the Blue Cross network

The following components are included in the program:

- [Precertification of Advanced Imaging Services](#)
- Accreditation through American College of Radiology (ACR) and/or Intersocietal Accreditation Commission (IAC)

## BCBS of Louisiana

BCBSLA requires accreditation in Diagnostic Services in order to participate in their networks.

### **Diagnostic Services (including CMS Independent Diagnostic Testing Facilities)**

Accreditation – Accredited facility types: Nuclear Medicine, MRI, CT and PET by American College of Radiology (ACR) or Intersocietal Accreditation Commission (IAC) or other appropriate accreditation as applicable.

Learn more at [providers.bcbsla.com/provider-networks/facilities-and-hospitals](https://providers.bcbsla.com/provider-networks/facilities-and-hospitals) >> Credentialing >> Facility Type Requirement.

## BCBS of Massachusetts

To receive reimbursement, all professional providers, technical providers, and non-hospital-based free-standing facilities must have privileges for the following diagnostic imaging services:

- Angiography
- Bone Densitometry
- **Cardiac CT Scan**
- Endovenous Laser Treatment
- Fluoroscopy
- Mammography
- MRI
- Nuclear Medicine, including PET scan
- Ultrasound (general, breast, vascular, thyroid)
- X-ray

BCBS of Massachusetts applies distinct reimbursement criteria to *technical* providers — who *perform* imaging services — and *professional* providers — who *read and interpret* the images.

### Apply to provide technical services:

- You can apply to be reimbursed for costs for owning, leasing, or use of diagnostic imaging for the services listed below.
- Complete a separate application for each location where you own, lease, or otherwise incur the full usage cost of diagnostic imaging equipment for any of the modalities listed below.
- If there are changes to the diagnostic imaging equipment or service site information, submit a new copy of the application with an explanation attached.

For the following modalities, use the [TDI Privileging Application](#):

Modality	Technical requirements
<b>Cardiac CT Scan</b>	<b>Accreditation from <a href="#">IAC CT</a> or ACR</b>
Endovenous Laser Treatment	<i>Free-standing facility and hospitals</i> Accreditation from IAC
Magnetic Resonance Imaging (MRI)	Accreditation from IAC or ACR
Ultrasound, Vascular	Accreditation from IAC or ACR

**Note from IAC:** Only the modalities that require IAC accreditation are listed above, for full listing of requirements by modality, please visit the [BCBSMA website](#).

# BCBS of Michigan

## Freestanding Radiology Center

To enroll, providers in a freestanding radiology center are required to submit an accreditation certificate from one of the following:

- American College of Radiology or,
- [Intersocietal Accreditation Commission](#) or,
- The Joint Commission

For more information, reference the Provider Enrollment and Change Process Required Document Checklist on the BCBS of Michigan website ([www.bcbsm.com/content/dam/public/Providers/Documents/enrollment/WP-11225-Req-Doc-Checklist.pdf](http://www.bcbsm.com/content/dam/public/Providers/Documents/enrollment/WP-11225-Req-Doc-Checklist.pdf)) – Updated May 2023.

## BCBS of Mississippi

All Network Providers billing the technical component of the CT must be accredited in CT by the [Intersocietal Accreditation Commission \(IAC\)](#) or a CT module by the American College of Radiology (ACR). The professional component of the CT will be reimbursed based upon the accreditation of the facility as the ACR and the IAC facility accreditations require that interpreting professional physicians also be accredited.

Provider Accreditation for CT – Network Providers	
Computed Tomography (CAT Scan) and Computed Tomographic Angiography (CTA) of the Abdomen and Pelvis	Computed Tomography (CAT Scan) and Computed Tomographic Angiography (CTA) of the Chest and Thorax
Computed Tomography (CAT Scan) and Computed Tomographic Angiography (CTA) of Extremity or Joint	Computed Tomography (CAT Scan) and Computed Tomographic Angiography (CTA) of the Head and Neck
Computed Tomography (CAT Scan) of the Cervical, Thoracic, and Lumbar Spine	Cardiac Computed Tomographic Angiography (CCTA)

**Please note:** The above requirements list only a portion of the full reimbursement directive as related to accreditation. To review the complete medical policies for CT, please visit [www.bcbsms.com/medical-policy-search](http://www.bcbsms.com/medical-policy-search) and use the search tool to locate any of the medical policies listed above.

# BCBS of North Carolina

## Provider Application (credentialing + enrollment)

### Free Standing Radiology Facilities (Blue Medicare HMO and Blue Medicare PPO Networks Only)

Please include the following documents with your application:

- A copy of a NC license or Certificate of Need (if applicable per state or federal regulatory requirements)
- **One of the following accreditation certificates is required:**
  - American College of Radiology (ACR)
  - [Intersocietal Accreditation Commission \(IAC\)](#)
  - The Joint Commission (JCAHO)
- Medicare certification
- A general liability malpractice insurance face sheet. It must include current coverage dates, provider name, address, and limits of coverage (\$1 million per occurrence/\$3 million per aggregate) or letter attesting to all covered sites.

For more information on the credentialing process as related to accreditation, please visit [www.bluecrossnc.com/providers/network-participation/provider-facility-applications](http://www.bluecrossnc.com/providers/network-participation/provider-facility-applications), scroll down Freestanding Radiology.

# BlueCross BlueShield of Texas

## Accreditation:

A current Certificate or Letter of Accreditation from one of the Accreditation Programs below:

### CT / MRI / Nuclear Medicine/PET:

Accreditation from one of the following:

- The American College of Radiology (ACR);
- **The Intersocietal Accreditation Commission (IAC); or**
- The Joint Commission (JC);

## California Senate Bill 1237 (Medical Radiation Safety Act)

Beginning July 1, 2013, facilities that furnish computed tomography (CT) services must be accredited by an organization that is approved by the Centers for Medicare and Medicaid Services (CMS), an accrediting agency approved by the Medical Board of California or the State Department of Public Health. This bill also requires the facility to report certain information to the department, the affected patient and the patient's treating physician. **The [Intersocietal Accreditation Commission \(IAC\)](#) has been designated as an approved accrediting organization.** Here are the major points of the bill related to accreditation, CT facilities should be aware of:

*This bill would, commencing July 1, 2013, require facilities that furnish CT X-ray services to be accredited by an organization that is approved by the federal Centers for Medicare and Medicaid Services, an accrediting agency approved by the Medical Board of California, or the State Department of Public Health. The bill would also require the facility to report certain information to the department, the affected patient, and the patient's treating physician.*

### **SECTION 1:**

- a) *Commencing July 1, 2012, subject to subdivision (e), a person that uses a computed tomography (CT) X-ray system for human use shall record the dose of radiation on every CT study produced during a CT examination.*
- b) *The facility conducting the study shall electronically send each CT study and protocol page that lists the technical factors and dose of radiation to the electronic picture archiving and communications system.*
- c) *The displayed dose shall be verified annually by a medical physicist to ensure the displayed doses are within 20 percent of the true measured dose measured in accordance with subdivision (f) unless the facility is accredited.*
- d) *Subject to subdivision (e), the radiology report of a CT study shall include the dose of radiation by either recording the dose within the patient's radiology report or attaching the protocol page that includes the dose of radiation to the radiology report.*
- e) *The requirements of this section shall be limited to CT systems capable of calculating and displaying the dose.*
- f) *For the purposes of this section, dose of radiation shall be defined as one of the following:*
  - *The computed tomography index volume (CTDI vol) and dose length product (DLP), as defined by the International Electrotechnical Commission (IEC) and recognized by the federal Food and Drug Administration (FDA).*
  - *The dose unit as recommended by the American Association of Physicists in Medicine*

*SEC. 2. Section 115112 is added to the Health and Safety Code, to read:*

**115112. Commencing July 1, 2013, facilities that furnish CT X-ray services shall be accredited by an organization that is approved by the federal Centers for Medicare and Medicaid Services, an accrediting agency approved by the Medical Board of California, or the State Department of Public Health. To review the entire chaptered version of the bill, [click here](#).**

If your facility is not granted accreditation through one of the approved organizations by July 1, 2013, it will not receive reimbursement. Your facility must, at all times, maintain accreditation with an accrediting organization.

# Centers for Medicare and Medicaid Services (National)

## Accreditation of Advanced Diagnostic Imaging Suppliers

### I. Background

Section 135(a) of the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA) (P.L. 110-275) amended section 1834(e) of the Social Security Act (the Act). This amendment requires suppliers of the technical component of advanced diagnostic imaging (ADI) services to be accredited by a designated accrediting organization in order to receive Medicare reimbursement. This accreditation requirement for ADI suppliers was effective January 1, 2012. CMS has the statutory authority to designate accrediting organizations which accredit suppliers furnishing the technical component of ADI services. These requirements do not apply to hospitals or critical access hospitals.

Under section 1861(d) of the Act, an ADI supplier is defined as a physician or other practitioner, or facility such as an Independent Diagnostic Testing Facility that furnishes the technical component of ADI services. “Technical component” is defined as all non-physician work performed by an ADI supplier, including administrative and non-physician personnel time and use of the ADI equipment and facility.

Section 1834(e)(1)(B) of the Act defines “advanced diagnostic imaging” procedures as diagnostic magnetic resonance imaging (MRI), computed tomography (CT), and nuclear medicine imaging procedures, such as positron emission tomography (PET). ADI procedures do not include x-ray, ultrasound, fluoroscopy procedures or diagnostic and screening mammography.

Note: Diagnostic and screening mammography are subject to oversight by the U.S. Food and Drug Administration.

### II. Information about the Advanced Diagnostic Imaging Accrediting Organizations

- Application for CMS-designation as an ADI accrediting organization is a voluntary process. Application and re-application procedures are set forth at 42 CFR 414.68(c). (A link to these regulations is available in the “Related Links” section below).
- Each designated ADI accrediting organization may establish its own individual quality standards. At a minimum, these standards must address, but are not limited to, the following areas: staff qualifications; equipment standards and safety; safety of patients, family and staff; medical records; and patient privacy.
- While the standards among the designated ADI accrediting organizations may vary, each accrediting organization must demonstrate that its accreditation program standards meet or exceed the standards established by statute and in the Medicare regulations.
- Designated ADI accrediting organizations are private entities which charge fees for their accreditation services.
- Suppliers or other entities seeking additional information about CMS-designated ADI accrediting organizations and their accreditation programs may contact the accrediting organizations listed below.

### III. CMS-designated ADI Accrediting Organizations:

- American College of Radiology (ACR)
- Intersocietal Accreditation Commission (IAC)
- RadSite
- The Joint Commission (TJC)

For complete policy details, [please visit the CMS website](#)»

## eviCore Healthcare (National)

### Accreditations, Insurance, and Reporting Requirements:

A facility seeking to furnish the technical component of advanced diagnostic imaging services (MR, CT, PET or NM) is **required** to be accredited by one of the following: the American College of Radiology (ACR), the Intersocietal Accreditation Commission (IAC), The Joint Commission (TJC), or RadSite. Accreditation by the American Institute for Ultrasound in Medicine (AIUM) or the American Society of Breast Surgeons (ASBS) is also acceptable for facilities in networks requiring ultrasound accreditation. ACR accreditation or state certification, is required for all mammography units. Accreditation is required at a modular level for each service rendered at the facility (for example: the cardiac module is required for all cardiac CT procedures). The requirements of the accrediting organization must be met at all times to maintain reimbursement. (See specific modular requirements under Equipment Requirements) 2. Accreditation applications for new installations (new facility, additional modality or replacement equipment) must be submitted to an approved accrediting organization within three (3) months of first clinical use.

### High-Tech Requirements (applicable to all networks):

#### **CT Standards**

1. Current ACR, IAC, TJC, or RadSite modular accreditation for each CT unit at the facility. For example, facilities rendering coronary calcium scoring, cardiac CT or cardiac CTA must have cardiac CT accreditation.
2. 4 slice per rotation (minimum).
3. 16 slice per rotation (minimum) for Computed Tomographic Angiography (CTA) and Coronary Calcium scoring.
4. 64 slice per rotation (minimum) for Cardiac CT (CCT) and Cardiac Computed Tomography Angiography (CCTA).
5. Cone beam CT units will not be approved for the eviCore network if it is the only CT unit at the facility.

### Quick Links:

- [eviCore Healthcare Network Facility Standards](#) (Effective 11/16/2023)

## Horizon BCBS of New Jersey

All CT, MRI, Ultrasound, Nuclear Medicine and PET/CT scanners must be accredited for all applicable accreditation modules by either the American College of Radiology (ACR), the American Institute of Ultrasound in Medicine (AIUM), the Intersocietal Accreditation Commission (IAC) or the American Society of Breast Surgeons (ASBS) and The Joint Commission (TJC). If a radiology site performs echocardiography, accreditation by the Intersocietal Accreditation Commission (IAC) is required. Accreditation must include the appropriate modules for exams being performed.

### Accreditation Modules (CT):

IAC	ACR	RadSite
Coronary Calcium Scoring		Angiography
Coronary CTA	Abdomen	Body
Neurological	Cardiac (Adult &/or Pediatric)	Cardiac
Maxillofacial	Chest	Maxillofacial
Body	Head and Neck	Musculoskeletal
Vascular CTA		Neurologic

## Minnesota House Bill 2276

Effective August 1, 2013, Minnesota facilities and hospitals that furnish advanced diagnostic imaging (ADI) services (inclusive of Nuclear/PET, MRI and CT) must be accredited by an organization approved by the United States Department of Health and Human Services in order to receive reimbursement. The [Intersocietal Accreditation Commission \(IAC\)](#) has been designated as an **approved accrediting organization**. Here are the major points of the bill related to accreditation, facilities should be aware of:

### SECTION 1 (SUBDIVISION 2)

**Accreditation required.** (a)(1) *Except as otherwise provided in paragraph (b), advanced diagnostic imaging services eligible for reimbursement from any source, including, but not limited to, the individual receiving such services and any individual or group insurance contract, plan, or policy delivered in this state, including, but not limited to, private health insurance plans, workers' compensation insurance, motor vehicle insurance, the State Employee Group Insurance Program (SEGIP), and other state health care programs, shall be reimbursed only if the facility at which the service has been conducted and processed is accredited by one of the following entities:*

- (i) American College of Radiology (ACR);
- (ii) [Intersocietal Accreditation Commission \(IAC\)](#);
- (iii) the Joint Commission; or
- (iv) other relevant accreditation organization designated by the secretary of the United States Department of Health and Human Services pursuant to United States Code, title 42, section 1395M.

(2) All accreditation standards recognized under this section must include, but are not limited to:

- (i) provisions establishing qualifications of the physician;
- (ii) standards for quality control and routine performance monitoring by a medical physicist;
- (iii) qualifications of the technologist, including minimum standards of supervised clinical experience;
- (iv) guidelines for personnel and patient safety; and
- (v) standards for initial and ongoing quality control using clinical image review and quantitative testing.

(b) Any facility that performs advanced diagnostic imaging services and is eligible to receive reimbursement for such services from any source in paragraph (a)(1) must obtain accreditation by August 1, 2013. Thereafter, all facilities that provide advanced diagnostic imaging services in the state must obtain accreditation prior to commencing operations and must, at all times, maintain accreditation with an accrediting organization as provided in paragraph (a).

**Subd. 3. Reporting.** (a) Advanced diagnostic imaging facilities and providers of advanced diagnostic imaging services must annually report to the commissioner demonstration of accreditation as required under this section.

(b) The commissioner may promulgate any rules necessary to administer the reporting required under paragraph (a). [View the full requirements for bill](#)»

**If your facility is not granted accreditation through one of the approved organizations by August 1, 2013, it will not receive reimbursement.** Your facility must, at all times, maintain accreditation with an accrediting organization.

[Read more on the Minnesota Department of Health website](#)»

# TriWest Healthcare Alliance

## Provider Credentialing Requirements (Updated July 2020)

The Department of Veterans Affairs (VA) may perform random onsite visits to provider locations through coordination with TriWest to inspect physical operations and/or review records of Veterans, speak with Veterans, review quality and completeness of accreditation, certification and credentialing, privileging and licensing documentation.

### Additional Credentialing Requirements for Clinics/Facilities

<b>Independent Physiological Lab (includes Cardiac Cath Lab and PET Center)</b>	Positron Emission Tomography (PET) Centers shall be accredited by the American College of Radiology (ACR), the <a href="#">Intersocietal Accreditation Commission (IAC)</a> or The Joint Commission (TJC) or RadSite
<b>Magnetic Resonance Imaging (MRI), Freestanding - Facility</b>	MRI and Breast MRI – Accredited by the ACR, IAC, TJC or RadSite
<b>Facility of Portable XRay</b>	Accredited by the ACR or IAC
<b>Outpatient Facility Providing Advanced Diagnostic Imaging</b>	<b>Accredited by the ACR, IAC, TJC or RadSite</b>

For complete details, [please visit the TriWest Healthcare website](#)»

# UnitedHealthcare (National)

## Imaging Accreditation

UnitedHealthcare is committed to ensuring that all of our members have access to quality health care, including medical imaging services.

We believe patients deserve assurance that equipment, technologists and physician practices are in compliance with professional society-developed performance standards for CT, MRI, PET, nuclear medicine/cardiology and echocardiography procedures (collectively referred to as "Advanced Imaging Studies").

If you perform Advanced Imaging Studies and bill on a Form CMS 1500, or the electronic equivalent, you must obtain accreditation from one of the accrediting agencies listed below.

- American College of Radiology (ACR)
- [Intersocietal Accreditation Commission \(IAC\)](#)
- RadSite
- The Joint Commission (TJC)

### Accreditation is required for the following Advanced Imaging Studies:

- **CT scan**
- Echocardiography
- MRI
- Nuclear Medicine / Cardiology
- PET scan

*Pursuant to our Imaging Accreditation Program, we require accreditation for Advanced Imaging Studies. At this time, however, we will not require accreditation as a condition of eligibility for reimbursement and, therefore, will not administratively deny claims for Advanced Imaging Studies based on lack of accreditation. When a decision is made to activate the claim denial component of the Imaging Accreditation Program, we'll communicate the effective date to you. We remain committed to advancing the quality and safety of imaging services through the Imaging Accreditation Program and will keep you apprised of any changes to our program.*

Learn more at [www.uhcprovider.com/en/resource-library/Join-Our-Network/Dental-Vision-Behavioral-Health.html](http://www.uhcprovider.com/en/resource-library/Join-Our-Network/Dental-Vision-Behavioral-Health.html) >> Imaging Accreditation.

## UnitedHealthcare (California Ancillary Service Care Providers)

Accreditation from **American College of Radiology or Intersocietal Accreditation Commission**, in order to participate in the **network** is required for Radiology and Independent Diagnostic Testing Facility (IDTF) - CT, MRI, MRA, PET or Nuclear Medicine.

Learn more at [www.uhcprovider.com/en/resource-library/Join-Our-Network/Ancillary-Facilities.html](http://www.uhcprovider.com/en/resource-library/Join-Our-Network/Ancillary-Facilities.html).

## **UnitedHealthCare - Oxford Health Plans (CT, NJ, NY)**

### **Accreditation Requirements for Participating Providers**

In diagnostic imaging, accreditation programs have emerged as key initiatives to advance the quality and safety of imaging studies. It is important that Members receive services from facilities whose equipment, technologists, and physicians are in compliance with established accreditation performance standards. **All freestanding facilities and physician offices performing outpatient radiology advanced imaging studies in the eviCore imaging network are required to obtain and maintain accreditation as a condition for reimbursement for the below services.** Radiologists seeking reimbursement for advanced imaging must have the laboratory/facility accreditation on file.

<b>Provider Specialty</b>	<b>Accreditation in Appropriate Module</b>	<b>Modality/Procedure</b>
Radiology Facilities	ACR	MRI, Breast MRI, CT, Nuclear Medicine*, PET, Ultrasound, Breast Ultrasound, Mammography, Stereotactic Biopsy
	AIUM	Ultrasound, Breast Ultrasound
	ASBS	Breast Ultrasound, Stereotactic Breast Biopsy
	IAC	MRI, CT, Nuclear Medicine*, PET, Ultrasound
	RadSite (except cardiac procedures)	MRI, CT, Nuclear Medicine (SPECT)*, PET
	TJC	MRI, CT, Nuclear Medicine*, PET, Ultrasound, X-ray, Breast Ultrasound, Stereotactic Breast Biopsy

**Note:** \*Nuclear Medicine procedures noted with an (\*) are only reimbursable to radiologists when they have the appropriate certification.

Learn more at [www.uhcprovider.com/content/dam/provider/docs/public/policies/oxford/accred-requirements-radiologists-radiology-centers-ohp.pdf](http://www.uhcprovider.com/content/dam/provider/docs/public/policies/oxford/accred-requirements-radiologists-radiology-centers-ohp.pdf) (Effective 8-1-2023).

## Wellmark BCBS (Iowa, South Dakota)

Referenced from the Wellmark Provider Guide

### Facility/Entity Accreditation/CMS Requirements

All facilities/entities must have at least one of the following licenses/certifications/accreditations to meet credentialing requirements:

**Radiology/Imaging Center** (including, but not limited to, the following types of centers):

- General Radiology
- **CT, CTA**
- Echocardiography
- Mammography
- MRI, MRA
- Nuclear Cardiology
- PET Scan
- Radiation Oncology
- Ultrasound
- Portable X-Ray

**Centers offering any of the services listed immediately below must be accredited by ACR or one of the accrediting agencies of the [Intersocietal Accreditation Commission](#) (IAC Vascular Testing, IAC Echocardiography, IAC Nuclear/PET, IAC MRI or IAC CT):**

- **CT**
- **CTA**
- Nuclear Cardiology
- Echocardiography
- PET
- PET/CT
- MRI
- MRA

If the center does not offer any of the services above, it must be accredited by AAAHC, The Joint Commission, ACR, or one of the accreditation agencies of the Intersocietal Accreditation Commission (IAC Vascular Testing, IAC Echocardiography, IAC Nuclear/PET, IAC MRI or IAC CT).

**Note from IAC:** The above requirements list only a portion of the full reimbursement directive. Please refer to the [Wellmark Provider Guide](#) (updated Dec 2023) for additional information on the complete requirements and for specific requirements for other modalities.
