

ECHOCARDIOGRAPHY

Payment Policies

To date, the IAC is aware that the following insurers or companies have adopted echocardiography reimbursement directives. While the IAC attempts to stay abreast of reimbursement policies as a service to the echocardiography community, these policies are changed and updated regularly by the insurance carriers. Therefore, the IAC recommends that applicant facilities contact the insurance carriers in their area for the most accurate and current information to ensure compliance with reimbursement requirements at all times. If you are aware of additional payment policies, or have questions about the information posted, please e-mail reimbursement@intersocietal.org.

PLEASE NOTE: The policy details within this document detailing accreditation requirements are referenced directly from insurer websites and manuals and are only a portion of the full reimbursement directives, please search for the full policy using the links provided.

Aetna (National)

Radiology Accreditation

Aetna requires accreditation to be eligible for reimbursement for the technical component of advanced diagnostic imaging procedures. Accreditation can be from:

- American College of Radiology (ACR)
- **Intersocietal Accreditation Commission (IAC)**
- Joint Commission (TJC), and/or RadSite

The following types of providers require this accreditation:

- Independent diagnostic testing facilities
- Freestanding imaging centers
- Office-based imaging facilities
- Suppliers of advanced diagnostic imaging procedures

For these purposes, advanced diagnostic imaging procedures exclude X-ray, ultrasound, fluoroscopy and mammography. Included are:

- Magnetic resonance imaging (MRI)
- Magnetic resonance angiography (MRA)
- **Computed tomography (CT)**
- Echocardiograms
- Nuclear medicine imaging, such as positron emission tomography (PET)
- Single photon emission computed tomography (SPECT)

Note: Providers not accredited by the ACR, IAC, TJC and/or RadSite will not be eligible for payment for advanced diagnostic imaging services.

Please note: The above requirements list only a portion of the full reimbursement directive as related to accreditation. For full requirements, please refer to the [Network Participation Criteria](#) or the [Office Manual for Health Care Professionals – All Regions](#) (Updated February 2025)»

Outpatient Imaging Self-Referral (Commercial, Medicare, Medicaid)
(Administered by EviCore by Evernorth)

Participating practitioners are reviewed for active [accreditation](#). For echocardiography services, the review appears in the national databases of IAC Echocardiography. For nuclear medicine/nuclear cardiology services, the review appears in the national database of ACR and IAC Nuclear/PET. For PET services, the review appears in the national database of IAC Nuclear/PET and ACR PET.

Please note: The requirements listed above are only a portion of the complete reimbursement directive as related to accreditation.

Horizon BCBS of New Jersey

PRACTICE/SITE/TECHNOLOGISTS REQUIREMENTS:

All CT, MRI, Ultrasound, Nuclear Medicine and PET/CT scanners must be accredited for all applicable accreditation modules by either the American College of Radiology (ACR), the American Institute of Ultrasound in Medicine (AIUM), the Intersocietal Accreditation Commission (IAC) or the American Society of Breast Surgeons (ASBS) and The Joint Commission (TJC). **If a radiology site performs echocardiography, accreditation by the Intersocietal Accreditation Commission (IAC) is required.** Accreditation must include the appropriate modules for exams being performed.

Accreditation Modules (Echocardiography):

IAC
Adult Transthoracic
Adult Transesophageal
Adult Stress
Pediatric Transthoracic
Pediatric Transesophageal
Fetal

UnitedHealthcare (National)

Imaging Accreditation

UnitedHealthcare is committed to ensuring that all of our members have access to quality health care, including medical imaging services.

We believe patients deserve assurance that equipment, technologists and physician practices are in compliance with professional society-developed performance standards for CT, MRI, PET, nuclear medicine/cardiology and echocardiography procedures (collectively referred to as "Advanced Imaging Studies").

If you perform Advanced Imaging Studies and bill on a Form CMS 1500, or the electronic equivalent, you must obtain accreditation from one of the accrediting agencies listed below.

- American College of Radiology (ACR)
- [Intersocietal Accreditation Commission \(IAC\)](#)
- RadSite
- The Joint Commission (TJC)

Accreditation is required for the following Advanced Imaging Studies:

- CT scan
- **Echocardiography**
- MRI
- Nuclear Medicine / Cardiology
- PET scan

Pursuant to our Imaging Accreditation Program, we require accreditation for Advanced Imaging Studies. At this time, however, we will not require accreditation as a condition of eligibility for reimbursement and, therefore, will not administratively deny claims for Advanced Imaging Studies based on lack of accreditation. When a decision is made to activate the claim denial component of the Imaging Accreditation Program, we'll communicate the effective date to you. We remain committed to advancing the quality and safety of imaging services through the Imaging Accreditation Program and will keep you apprised of any changes to our program.

UnitedHealthCare - Oxford Health Plans (CT, NJ, NY)

Oxford's Outpatient Imaging Self-Referral Policy

The outpatient imaging self-referral policy is designed to promote appropriate use of diagnostic imaging by primary care physicians and specialty physicians in office settings. High quality imaging service standards are promoted by requiring that providers limit their imaging to their specialty practice areas, and by meeting the standards of one of several national accreditation organizations, like the following:

- The American College of Radiology (ACR)
- The American Institute of Ultrasound in Medicine (AIUM)
- **The Intersocietal Accreditation Commission (IAC)**
- RadSite
- The Joint Commission (TJC)

The Oxford policy designates which imaging procedures shall be payable by Oxford (subject to member benefits) in primary care physicians' or specialty physicians' offices by provider practice specialty.

Note: Confirmed by the ACR, providing final interpretations of diagnostic procedures remains outside the physician assistants' scope of practice.

In addition, this policy describes the minimum accreditation and certification requirements for ultrasound, echocardiography and nuclear medicine. This policy assumes board certification by an American Board of Medical Specialties (ABMS) recognized in the provider specialty listed above.

Cardiologists-Pediatric Only

Echocardiography studies require: Certification by the Intersocietal Accreditation Commission for Echocardiography (IAC)

Refer to the Clinical Policy titled [Obstetrical Ultrasonography](#) for additional information.

Please Note: The details above list only a small portion of UnitedHealthCare's requirements as related to accreditation only. For complete NA requirements, visit the [UHC website](#) (Updated 8-2024).

Wellmark BCBS (Iowa, South Dakota)

Referenced from the Wellmark Provider Guide

Facility/Entity Accreditation/CMS Requirements

All facilities/entities must have at least one of the following licenses/certifications/accreditations to meet credentialing requirements:

Radiology/Imaging Center (including, but not limited to, the following types of centers):

- General Radiology
- CT, CTA
- **Echocardiography**
- Mammography
- MRI, MRA
- Nuclear Cardiology
- PET Scan
- Radiation Oncology
- Ultrasound
- Portable X-Ray

Centers offering any of the services listed immediately below **must be accredited** by ACR or one of the accrediting agencies of the [Intersocietal Accreditation Commission](#) (IAC Vascular Testing, IAC Echocardiography, IAC Nuclear/PET, IAC MRI or IAC CT):

- CT
- CTA
- Nuclear Cardiology
- **Echocardiography**
- PET
- PET/CT
- MRI
- MRA

If the center does not offer any of the services above, it must be accredited by AAAHC, The Joint Commission, ACR, or one of the accreditation agencies of the Intersocietal Accreditation Commission (IAC Vascular Testing, IAC Echocardiography, IAC Nuclear/PET, IAC MRI or IAC CT).

Note from IAC: The above requirements list only a portion of the full reimbursement directive. Please refer to the [Wellmark Provider Guide](#) (updated March 2025) for additional information on the complete requirements and for specific requirements for other modalities.
